[Eskom clarifies the issue of "curtailment" for IPPs](#)

In January 2024 Eskom published the much-anticipated addendum to the Generation Connection Capacity Assessment (GCCA) (Addendum). The Addendum was first mooted in the GCCA 2025 published in October 2023 (GCCA 2025). It is intended to provide clarity in respect of Eskom's proposal in the GCCA 2025 to use "curtailment" to address the challenges of limited available grid capacity faced by independent power producer (IPP) projects in the Eastern, Western and Northern Cape (the provinces).
