[Unlocking stalemates: Solutions for shareholder deadlocks](#)

Imagine this – the future of your company hangs in the balance, but the room is split down the middle. Critical decisions are stalled, tempers are flaring, and progress has ground to a halt. Welcome to the frustrating world of corporate deadlocks. Such an impasse can cripple even the most dynamic of companies, turning what should be a strategic collaboration into a stalemate. But fear not, for there are creative solutions designed to break these deadlocks and get your company back on track. In this article, we explore some of these deadlock-breaking mechanisms. We don't cover possible processes preceding the shareholder deadlock stage – such as referring matters to respective CEOs of shareholders for discussion before going to a vote at shareholder level – which could be used in conjunction with the suggestions below.

[Agribusiness acquisitions: What to know before you buy](#)

While each business acquisition is unique, acquiring an agri-business raises some specific, important issues. These should always be considered and dealt with to some extent in the relevant sale agreement/s. In this alert, we briefly explore five of these issues. The structure of the deal will influence the wording of the relevant clauses but not the principles involved.

[Board committees 101](#)

Section 72 of the Companies Act 71 of 2008 (Companies Act) empowers the appointment and operation of board committees (committees), which can play a key role in the operations of the board of directors. For example, specialist knowledge or extended time is required to deal with an important issue such as refinancing, building a new plant, or an office move.

[Minority protections against oppressive and/or prejudicial amendments to an MOI](#)

When considering the age-old question of which provisions should be contained in the memorandum of incorporation (MOI) and which provisions should be contained in the shareholders' agreement (SHA), one important consideration which is often overlooked is the threshold required to amend an MOI as opposed to an SHA.

[Should I ask my lawyer or should I just ChatGPT it?](#)

Have you heard of the powerful tool that is taking the world by storm? ChatGPT, a large language model developed by OpenAI, has been making waves lately for its ability to generate human-like responses to natural language prompts. Numerous recent articles on the internet report how ChatGPT passed the law bar exam in the US – although various commentators and journalists do acknowledge that this is very different from actually practicing and applying the law. But just how reliable is this technology? We put ChatGPT to the test by asking it some legal questions and were impressed by its capabilities.
