

Ralph Hopkins

Head of Information Technology

Ralph Hopkins is our Head of Information Technology. He has extensive management experience in all aspects of information technology and is responsible for CDH's national and African information technology requirements.

About Ralph

Ralph began his career in the firm's information technology department in April 2000. He moved up to Department Manager in 2005 and then onto the Head of the Department as part of the merger between Cliffe Dekker and Hofmeyr in 2008.
