

Allan Reid

Executive Consultant

Allan Reid is a Executive Consultant in our Corporate & Commercial practice. He previously served as Joint Head of the Mining & Minerals sector. Allan has extensive experience in mining and minerals law, intellectual property law, mergers and acquisitions, aviation law and private equity deals.

About Allan

Allan began his career as a Candidate Attorney at Solomon and Nicholson, where he was subsequently promoted to an Associate. He then joined Slomowitz Myburgh Cawood and Brits as an Associate and was later promoted to Director. He was one of the founding partners of Smuts and Reid before joining Savage Jooste and Adams in 1997 as head of their Corporate, Commercial and Intellectual Property department. In February 2008 Allan joined Cliffe Dekker (now Cliffe Dekker Hofmeyr) as a Director. In 2024 Allan was appointed Executive Consultant.

News

[Residue stockpiles and residue deposits: Making sense of the amendments maze](#)

A notice for proposed amendments to the 2014 Environmental Impact Assessment (EIA) Regulations (EIA Regulations) and associated 2014 EIA Listing Notices 1, 2 and 3 (Listing Notices) pertaining to, inter alia, residue stockpiles and residue deposits, was published for comment by the Minister of Forestry, Fisheries and the Environment on 4 August 2023 (2023 Notice).

[Does an indirect change of control by means of a rights issue or otherwise require section 11 consent in terms of the MPRDA?](#)

The Mineral and Petroleum Resources Development Act 28 of 2002 (MPRDA) provides for the Minister of the Department of Mineral Resources and Energy (DMRE) (Minister) to consent to the transfer of prospecting and mining rights, including the transfer of a "controlling interest" in companies or close corporations that hold such rights.

[Where to from here? Considerations following the 2023 MPRDA Review Summit regarding the objects of transformation policy](#)

The Mineral and Petroleum Resources Development Act 28 of 2002 (MPRDA), which came into force on 1 May 2014, was a revolution in South Africa's regulation of mineral resources, specifically with regards to the exploitation of minerals, the vesting of custodianship in the minerals to the state in order to ensure equitable access to mineral and resources, and for ensuring the expansion of opportunities to historically disadvantaged persons.

[Can further foreign direct investment be attracted by easing the limitations on mining exploration in South Africa?](#)

It is well documented that South Africa is rich in mineral resources such as gold, platinum-group metals, base metals and diamonds, however, exploration and prospecting to uncover the deposits of these and other unrealised minerals is seriously subdued.

[Is equitable access into the mining industry ensured?](#)

South Africa's economy expanded by 1,6% in the third quarter of 2022, according to the Stats SA GDP outlook published on 6 December 2022, and the mining industry increased its economic output by 2,1%, maintaining its status as one of the main contributors to the country's GDP and employment. With this in mind, the questions to be asked are: What are the current barriers to entry? Is the industry exclusionary or accessible for small business entrepreneurs and historically disadvantaged communities looking to participate in the mining industry? What mechanisms/systems are in place to ensure transformation within the mining industry?
