

PUBLIC LAW

PUBLIC LAW

Public law governs the relationship between individuals (private companies and citizens) and the state (government). Whenever a private or public body undertakes a public function or performs a public power, or whenever an organ of state engages with the public, public law is likely to apply

Our Public Law specialists have extensive experience in many key areas of public law, including public procurement, public finance management, constitutional law, administrative law, municipal law, regulatory law, competition and health law

Our lawyers have in-depth knowledge and understanding of the broader legal and policy framework for decision making. We support public and private sector bodies in meeting and avoiding legal challenges in a complex legal and regulatory context. We assist in the application of administrative law to all levels of government

We understand the constitutional principles of government accountability and transparency and a public procurement system which is fair, equitable, transparent, competitive and cost-effective

"Cliffe Dekker Hofmeyr provides excellent advice and strategy, and follows through. The team is extremely knowledgeable."

"The firm has a strong multidisciplinary team that is extremely skilled and knowledgeable."
